The advantages offered are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2600 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY-CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:
"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one is in use is of any value for the purposes contemplated.
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."
I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of
Wines, Liquors & Cigars,
Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 33 per cent less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands; on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE; therefore, I can say with confidence, that my Liquors are PURE.
I have marked my Goods very low, and have therefor adopted the
ONE PRICE SYSTEM,
and no deviation from the price first asked; giving those who are not judges of the article, an equal chance with those that are. Every cask will be marked with the price. My arrangements are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.
Having been three years in business in this city, I flatter myself that my selections will meet the wants of this market. My assortment of CHOICE SEGARS are complete and my stock of LIQUORS comprises over 1000 original Casks of the most approved brands of

Election To-Morrow!

We trust that *all* our readers are aware of the fact that the Charter Election takes place *to-morrow*, and are alive to the importance of selecting the *very best men* that can be had to fill the City and Ward Offices. No man who has one tithe of interest in Milwaukee, or a grain of regard for its prosperity and good name, will fail to vote on this occasion. Our Merchants, Mechanics, Business men and Property owners especially, who appreciate the value of good management in public, as in private affairs, ought to make it a *business*, to-morrow, not only to vote and work themselves, but to urge their friends and neighbors, *one and all*, to the Polls. The credit, the progress and the interests of our City, for the next twelve months certainly, perchance for a much longer period, are *all* involved in the issue of To-morrow's contest. A very little effort, on the part of those whose stake is the deepest, will ensure a satisfactorily result. There are candidates in nomination whose success would redound to the advantage and reputation of our City. There are others whose election would be fronght with mischief to the public interests

We invoke a dispassionate comparison of the several tickets nominated and an unhesitating preference and cordial support of the *best men*, whether on the regular, or independent tickets, Democrats, Whigs, or Free Soilers. From among the different names presented to the People, a set of faithful, efficient and responsible officers can be selected, to whom the government of the City may safely be enterested. Let such men *only* be voted for to-morrow! Let every elector go to the Polls with the resolve to discard all party or personal considerations, and *for our City's sake*, cast his ballot for the BEST MEN.

From Madison.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

MADISON, Feb. 26, 1852.

The Senate met this morning, but adjourned for want of a quorum, to the afternoon.

In the Assembly, 35 members were present, and the work proceeded. Five bills were passed, and the germ of future action on local bills was clearly seen; or, at all events, I am glad to interpret in that manner, the remarks of some of the members present.

Bill No. 213, Assembly, was laid on the tables of members this morning. It seems to be a substitute for bill No. 120, noticed at considerable length some time since, as having been introduced by Dr. Peak, directing an immediate sale of 200,000 acres of Improvement Lands, at $2.50 per acre, to "meet the liabilities of the State" in that work, and to complete it.

The *new* bill is introduced by the same gentleman, and is doubtless intended to meet the objections naturally coming up against the old one, as that acknowledged liabilities of the State, and did *not* acknowledge any obligation to obey the provisions of the grant by Congress. The present bill commences thus: *"For the purpose of providing for the completion of the Improvement of the Fox and Wisconsin Rivers," &c.* It provides for the increase of the price of the lands to $2,50 per acre, (allowing present settlers to purchase at $1,25, if they pay for their whole claim at once,) and adds a proviso as to the manner of selling the lands, in the precise terms of the grant by Congress, *to wit*,—"that the said lands shall not be disposed of, *except as said improvement shall progress*, that is—so much of said lands may be sold as shall produce the sum of $20,000, and the sales shall then cease until the Governor shall certify the fact to the President of the United States, that one half of said sum has been expended upon said improvement, when a further sale shall be made"—and so on.

So far, so good; and this is the manner in which the work should have been done from the beginning, *to wit*, with cash, and no debt incurred. But then, Sec. 5 of this new bill provides as follows:—

> *Sec. 5.* The moneys arising from sales of land which shall be paid into the state land office of state treasury, after paying the warrants heretofore issued by the board of public works, and all indebtedness heretofore incurred by said board upon said improvement, and after completing the Portage canal and other work at Fort Winnebago, and paying all incidental expenses and keeping the dredge boat in operation, so far as may be necessary shall be applied to the payment of such sums as are or may become due upon contracts let prior to May 14th 1851, and if any deficiency shall occur in the amounts necessary for that purpose, or to pay the monthly estimates of work due or to become due upon said prior contracts, such deficiency shall be supplied from the avails of certificates issued in conformity with the provisions of law, and shall become a part of the principal sums in payment of which said certificates shall be issued:

Several pertinent questions will occur to members, and to others who see this bill, as for instance:

How much would be left to carry forward the Improvement, after the fund arising from sales shall have been applied to pay all the debts enumerated?

How is the Governor to certify that the monies received have been expended from time to time, "*as the work progresses*," when they have only been applied to pay old debts?

What is to be the pay of contractors as they go on with their work? New scrip and new warrants?

More than this; sec. 6th pledges the principal monies arising from the sales, after paying the above mentioned liabilities, to the redemption of the scrip issued to Morgan L. Martin. The former bill, I believe, brought Mr. Martin's scrip in first for payment.

I do not see how the inconsistencies of the bill can be reconciled; or how this vexatious matter can be settled at all, while the restrictions of the grant by Congress stare the Legislature in the face. They ought to stare the managers of the work out of countenance; for, if they had been obeyed from the commencement there would have been no debt and no trouble. It is only confusion worse confounded to attempt to cover up these things and go on in the old way. Better, by all odds, does it seem to me, to apply to Congress for a release from the restrictions of the grant, ascertain and fund the debt, and then, with competent and faithful engineers and Commissioners proceed in an honorable and just manner to complete the work, of such vast importance to the state. It may be said that a contract has been let to Mr. Martin for the work. True—but it seems evident enough that he relies upon extraordinary present aid from the State to go on with that contract; and it is at least questionable whether the Legislature is bound to provide the money for carrying out his contract, especially when it cannot be done without riding full tilt against law.

How much time this unfortunate legacy of the last and preceding state administrations will occupy in its settlement, remains to be seen. It is, at all events, to be hoped that this Legislature will not be blamed for whatever reasonable time it sees fit to consume in trying to find a way out of the labyrinth in which it is involved, by no fault of its own, certainly.

More of the members arrived during the morning, and the seats, during the afternoon session of the Assembly, were pretty well filled. They find huge piles of newspapers and documents awaiting them, and the mails will groan for day or two under the accumulated weight of matter.

The bill providing for extending the tracks of the M. and M. R. R. Co., to the Milwaukee and Menomonee rivers passed the Assembly this afternoon. At the suggestion of some of the Directors a section was added providing for obtaining the consent of the company, properly certified, before the bill goes into effect. This was done to avoid the constitutional objections which have been raised in similar cases of alteration of charter.

The members and others who attended the Festival at Milwaukee bring back glowing accounts of their reception, and the attentions paid them. From their accounts, it would seem that our citizens, already famed for their hospitality to strangers, surpassed themselves on that occasion. I must add that, with the usual and not very creditable perversity of human nature, many of our Madison friends set down the festival as only one part of "the plot to remove the Capitol!"

☞ The beautiful workings of an [illegible] valorem Tariff are strikingly exhibited by Mr. Weed of the *Albany Evening Journal*, in a letter from Marseilles, France, in which [illegible] that large cargoes of Rose Blankets are shipped from that port to the United States. Our Consul found those blankets invoiced at *five francs a pair*. This, by weight, gives a duty of about 12 cents a pound, while the wool of which they are manufactured is worth 30 cents. The Consul has been quarrelling with the importers, consignees, &c., for more than a year, and has finally got their valuation up from five to sixteen francs. This is a specimen of the manner in which we are swindled by the tariff, which Mr. Walker, greatly to the delight of John Bull, has been glorifying in England.—*N. Y. Tribune.*

NEW HAMPSHIRE.—The N. Hampshire election this month, is looked too with interest. A Governor and Legislature are to be chosen, the latter having a United States Senator to elect in place of John P. Hale, whose term expires in March, 1852. There are three candidates in the field for Governor—Thomas E. Sawyer, Whig; Dr. Noah Martin, Democrat; and John Atwood, Free soil

OUR RAIL ROAD TO THE MISSISSIPPI.—The New York *Tribune* of the 17th ult., contains the following paragraph:

> A party of Eastern capitalists, after searching investigation, have taken Fifty Thousand Dollars of the Mississippi and Milwaukee Railroad Bonds recently offered in this market.

This is a very gratifying indication. Eastern Capitalists can find few enterprises in the West which offer as good opportunities for investment as the Milwaukee and Mississippi Rail Road.

EXPORT OF SPECIE.—The Steamers continue to carry out large freights of "golden ore" to pay for the "excessive importations" with which Foreign Manufacturers, thro' their American agents, are flooding the country. The *Pacific*, which sailed on the 20th ult., took out $503,500, and the *Canada* on the 25th, had $650,000.

The shipments of specie from New York, up to February 21st, and the receipts from California to the same date, compare as follows:

Imports of gold from California,	$6,784,222
Exports of Coin to Europe,	5,686,585
	$1,097,627

From the above statement it appears that *six sevenths* of the gold received thus far from California, during the present year, has been already transferred to the coffers of European Capitalists and Manufacturers.

DEMOCRATIC CITY NOMINATIONS.—The Democratic City Convention, held on Saturday last, nominated the following ticket for City Officers: For *Mayor*, MOSES KNEELAND; for *Marshal*, TIMOTHY O'BRIEN; for *Treasurer*, LUCAS SEAVER; for *City Attorney*, C. K. WATKINS; and for *Police Justice*, CLINTON WALWORTH.

MAGAZINES FOR MARCH.—Our friend BIRD, at his handsome and well furnished store on Wisconsin street, has already received and offers for sale, Godey's, Graham's and Sartain's Magazines for March—all highly embelished—besides a great amount and variety of other publications, suited to all tastes and ages.

"DOLLY TALKING POLITICS."—The *Wisconsin* of Saturday has its usual semi-annual spasm about the *Sentinel*, politics, party nominations, the spoils, &c. &c. If we supposed that anybody attached the slightest consequence to the *Wisconsin's* opinions, or statements about such matters, we might take the trouble to notice them further. As it is, we shan't waste our powder.

QUICK TRIP.—The train of Hudson River Railroad cars that left New York at a quarter to two o'clock P. M. on Tuesday last arrived at the St. Charles Hotel, in Troy, at a quarter before six o'clock P. M.—making the trip in exactly four hours. That is quick enough.

☞ Saturday, tho' the last day but one of winter, was as cold and bleak as January. In the morning an inch or two of snow fell, but towards noon the wind chopped round to the North-west, and piped up sharp and strong.

☞ The *Pacific* returned from Sheboygan Saturday morning and immediately left again for Chicago. She leaves Chicago for this and intermediate ports at 8 o'clock A. M. to-day.

INCREASE OF OCEAN POSTAGE.—A writer in the *Washington Union* states that the Atlantic postage, in 1851 exceeded that of 1850, by more than *two hundred thousand dollars!*

CENSORSHIP OF THE PRESS.

MESSRS. EDITORS:—Please give the following preambles and resolutions an insertion, preceded by the remarks of the *See-Bote*, for the information of the American public, who shall be kept informed of further developments that may emanate from this wise body.

X.

We take, to-day, the following Resolutions from the Banner and Volksfreund, and request all German and English papers to give them an insertion. Behold! we have before us a most interesting document. The desire to introduce and exercise censure, cannot remain concealed from those who deem a newspaper article worthy of earnest consideration; and it is evident, there is a party, like the snake in the grass, that endeavors as a privilege, to acquire the greatest good of our freedom, viz:—Freedom of the Press. Those who delight in seeing something bordering on the ridiculous, may also be gratified by perusing it.

A meeting of a number of citizens, (Germans,) was held on Tuesday, the 17th of February, at King's Hall, 2d Ward, to consult about the ways and means through which the slanderous articles in the See-Bote against the noble Kossuth, and all their martyrs of European struggle for Liberty, may be counteracted. After a long consultation, it was resolved to appoint a Committee to report on Friday evening following, and to prepare resolutions to be submitted to the meeting. The following persons were appointed as such committee:—Kluppack, Regenfuss, Chas. Dick, M. Gerlach and Wm. Sauer.

On Friday evening the 20th, the meeting was called to order by Mr. Buckelmuller, by electing Mr. Neustadl, as President, and Mr. Sauer as Secretary. The President requested Mr. Kluppack, the Chairman of the former meeting, to make a report which is as follows:—

Whereas, Every public paper expresses the sense of some political party;

Whereas, Through misrepresentation of facts, the best and most just cause may be injured:

Whereas, The See-Bote (a paper published in this city) has declared itself openly against each free revolution of public and social acts, and advocates the acts of Religious and worldly tyrants, but especially, deceitfully opposes the efforts of martyrs and champions in the European struggle for liberty, which in some degree must wound every free thinking man:

Whereas, It is the duty of every man to oppose with all his might its fiendish efforts, therefore,

Resolved, That the See-Bote can only be considered as the organ of an ambitious, light-hating and fiendish society.

Resolved, That the See-Bote can have no other object than the introduction of Tyranny and the ruling of Priests ("Pfaffen.")*

Resolved, That we will use all honest means to expose the insidious attacks which the See-Bote may make against liberty, and to caution our citizens before it is too late, and to make the authors of these bold aspersions upon all noble things, and who have their rendezvous in the above named paper, feel public contempt.

Resolved, That a Vigilant Committee be appointed with power to call a meeting as soon as any agitation may render it necessary to guard our liberty against its enemies.

Resolved, That the editors of the other German papers in Milwaukee, (the Wisconsin Banner and Volksfreund) be requested to unite with us and persevere in combatting the enemy of our liberty as heretofore.

On motion, the report was accepted, and the Committee discharged—and the report being put to the vote, was unanimously adopted.

The President being authorized, appointed a Vigilant Committee of seven, to consist of the following persons: Messrs. Gerlack, Buckelmuller, S. Wagli, Kluppack, Hackendahl, Suhm, and Groeskreutz.

It was further resolved that the above proceedings be published in the Banner and Volksfreund, after which the meeting adjourned.

ISAAC NEUSTADL, Pres't.

W. SAUER, Sec'y.

SENSIBLE CONCLUSION.—The Fond du Lac *Democrat* has "private" advices from Madison, that the veto of the Rock River U. V. R.R. indefinite extension bill "was brought about by certain influential leading men, friends of the Governor, "Milwaukee," but "cannot believe" that the Governor would "allow himself to be governed by such low, contemptible and corrupt influence, &c." The *Democrat* is right to distrust so silly a fiction.

FREE TRADE.—In 1850, the Import of Woolen Goods into this country amounted to $17,151,509

Do of Cotton,	20,008,719
Do of Silks,	19,694,818
Total,	$56,855,046

Here are nearly **FIFTY-SEVEN MILLIONS** of fabrics that might as well have been manufactured at home, as purchased aboard. The distribution of that amount of money among our own laborers and artisans, would have filled the country with plenty, and carried its prosperity to to the highes pitch. But then it would not have been Democratic? Hurra for Free Trade!—*Boston Atlas.*

New York, Feb. 25

A grand party was given by the Mayor last evening to Mr. Webster.

Mr. Bancroft, the Common Council &c., attended.

The Baltic had on board about 150 invited guests and a strong representation of the editorial corps.

The steamer Baltic took her departure for Washington this A. M. about 11 o'clock, with a select party of invited guests on board.

The Royal mail steamer Canada sailed at noon for Liverpool with 22 passengers, and 650,991 dollars in specie.

It is expected that Mr. Webster will deliver a short address on taking the chair, at the meeting this evening, in commemoration of Mr Cooper.

Yesterday, P. M., a meeting of the German population of the city, by a call from Kinkell through the German papers, was held at the Union buildings, 163 Bowery. It was enthusiastic, and Kinkell's reception was very warm.

Halifax, Feb. 25.

The iron screw steamer Glasgow, from the Clyde, Feb. 7th, for New York, put in here this morning, at 9 o'clock, short of coal. She has a general cargo, and 20 passengers. She sailed the same day as the Cambria, and consequently she brings no later news.

The Maine Liquor Law in Rhode Island

Providence, Feb. 19.

The Maine Liquor Law was lost in the Senate to-day on a motion to concur in the amendments of the House. The vote was yeas 11, nays 20.

The Spirit Rappers.

Cleveland, Feb. 19.

The final termination of the meeting of Mediums or Spirit Rappers, proved a sad failure. The rappings were scarce and the practical demonstrations very unsatisfactory.

SUDDEN DEATH.

INDIANAPOLIS, Feb. 25.

The Hon. Ethan Allen Brown, who has acted during the year as one of the Vice-Presidents of the Indiana Convention, died last night a few moments after reaching his hotel, without struggle.

New York, Feb. 25.

Niblo's large Theatre was densely crowded last night, chiefly by members of the New York Historical Society, on the 48th anniversary of that institution, to hear the address of Mr. Webster.—On the stage were the officers and distinguished members of the Society—Washington, Irving, George Bancroft, Luther Brudish, Dr. Hacock, and many others.

Fully an hour before the time appointed every seat was filled, and the lobbies and halls were densely crowded.

Mr. Webster occupied two hours and a quarter in reading his discourse. It was somewhat different in many respects from any paper he has hitherto given to the public. It was a masterly production. He was received with enthusiastic applause.

To-day Mr. Webster receives his friends in the Governor's room at the City Hall, between the hours of 12 and 2 o'clock. In the evening he will be the guest of Mayor Kingsland.

The Cambria's mails reached here last. Among the items of news we notice the following:

The Packet ship Washington has made the shortest Eastern passage on record—making the passage in 13 days and 19 hours—allowing five hours difference in time, 13 days and 14 hours.

Col. Van Dei is appointed Governor of the Tuilleries, with the rank of General of Brigade.

The general decoration of the members of the Legion of Honor is re-established, as adopted by the Emperor in 1811.

WORKING OF THE MAINE LIQUOR LAW.—Two pipes of excellent gin have very recently been taken from the Custom House Stores in this city, and sent to the order and address of Neal Dow, Esq., author of the famous statute, and Mayor of Portland. The two pipes contained 266 gallons, price eighty-five cents per gallon. If Mr. Dow, as "agent for the state," sells the gin at $2 50 a gallon, he will make something handsome." In addition to the above transaction, we hear that a firm in India street have sent six barrels of ardent spirits to the order of a correspondent at Moosehead Lake, who wrote that the liquor might be sent without fear, as Mr. Dow had guaranteed it a safe passage through Portland!—*Boston Post.*

☞ Mr. Minturn, of the firm of Grinnell, Minturn & Co., was suddenly seized with sickness yesterday, from eating poisoned partridge, it is supposed. For several hours his life was despaired of, but at the last account he was considered to be out of danger.—*N. Y. Mirror, 21st ult.*

CIRCUIT COURT.

Trial of Wm. Ratcliffe for the Murder of David Ross.

BEFORE JUDGE HUBBELL

District Attorney Butler and E. G. Ryan for the State.

J. E. Arnold and A. D. Smith for Prisoner.

FIFTH DAY—FEB. 28, 1852.

John White, recalled by prosecution testified: In examining the spot on the boot, witness also noticed a hair on it: it was fastened to the boot about in the centre of the spot. The hair was over an inch long. The color of it was a darkish brown. The last time I saw the hair on the boot was in the Grand Jury room: witness thinks it was rubbed off then. When witness was at the house making the arrest there was no other person searched but prisoner.

Cross Examination.—Thinks the hair was on the spot when it was cut out: thinks spot was cut out by Dr. Garner. The color of hair resembled Mr. Butlers'; witness thinks it is not very easy to tell the color of a single hair; he looked at it in the light and in the shade—couldn't swear that it was the hair of a man: cannot swear that it was'nt the hair of an ox, cow, or dog; it might have been the hair of any animal as well as of a man; do not know what has become of it; noticed the hair of Ross; he had a remarkable head of hair; what witness would call a good head of hair; the color was about as dark as Criers. The blood was not entirely cleaned from the hair; they were cleaning it at the time; discovered at prisoners' house no signs of a recent washing. In all the search witness found nothing, he thought connected with this transaction except what he has already testified to.

William Quick, called by prosecution, deposed as follows: Resides on Main Street, 3d Ward; is a blacksmith; worked in May last, at Nelson Soggs' in this city; knows prisoner; knew him in May last; saw him at Soggs' shop some time in the latter part of last April; recollect hearing of the death of Ross. prisoner was at shop about 10 days before; it was 10 or 11 o'clock in forenoon; inquired for Soggs'; witness told him Soggs had gone to Chicago that morning on the boat; he said he wanted to see him; turned round and inquired if there was any ½ inch round iron; witness said he had none in shop but had some 9-16ths of an inch; he picked up a piece off of the floor; put it into one of the fires, heated it, and turned an eye on one end of it, and wanted witness to put a head on the other end; witness did so. The iron was 19 or 20 inches long. There was no other fire vacant but mine at the time; prisoner is a blacksmith. The iron was here produced and recognized by witness; witness sees no difference between this and the one made by him except that the bar of this is ½ inch and there was no ½ inch iron in the shop; witness went to dinner, leaving it on the floor; returned at 1 o'clock; prisoner was out doors when witness left; was not there on his return; the instrument was not there: don't know where prisoner was when he went to dinner.

Witness asked the prisoner what he wanted the instrument for; he said he wanted to hang it on the end of a spring pole of a punching machine; asked him no more about it; the piece of iron put on the end of the instrument forming the head witness picked up from the floor. The day of the week was Friday, the Friday but one previous to the death of Ross.

Cross Examination.—Have known defendant over 3 years have worked in the same shop with him, of Soggs & Cummings; have never had any difficulty with him; first inquired for Soggs: remember the time right well; kept no dates, or memorandum. The boat was not at the wharf at the time prisoner came to shop; Soggs clerk at that time, was Lathrop; Lathrop is now in Sheboygan; Lathrop was not then starting for wharf; there were 4 fires in the shop at the time, and all occupied; one by witness, another where rivets were made by a small man whose name witness does'nt remember; another by a man named Rinsink; William EcKibbe had the other one. Prisoner asked for iron: witness was doing a job for steamboat, was making a strap for hog-chain, had just finished it; prisoner told witness to make the head and inch and a half in diameter; needn't be particular; told him to make it round and weld it on the head; didn't tell him how he should weld it on; witness has never seen the spring pole of a punching machine; didn't ask prisoner what it was; can't swear to the exact time when prisoner came to the shop; saw him walk in the shop door; had been in about 10 minutes before he commenced conversation with witness; don't remember how long he had been in the shop before the iron was finished; don't recollect when Radcliff went out; don't know where he went. Thomas Holmes was in the shop when witness went to dinner; he was there when witness returned.

Thomas Holmes, here called by prosecution, deposed: Resides in Jefferson County; lived in the 4th ward in May last; was a boiler maker in Mr. Soggs shop; knew prisoner; had known him 8 or 9 months prior to his arrest; knew William Quick; recollect hearing of the death of Ross; saw prisoner several times in Soggs' shop before Ross' death; did not see him making an iron, but recollect his coming to the shop a few days before the death of Ross; saw such an iron as the one in Court at the shop 10 or 12 days before arrest; when witness first saw it, Quick was dropping it on the floor. Prisoner had been in the shop a short time before; there were 6 or 8 persons working in the shop; didn't go to dinner from the shop that day; did not leave the shop; was the only person in the shop during dinner hour, the other hands left about the same time. Prisoner was in the shop between 12 and 1, while the other hands were absent; witness was eating dinner; prisoner said "How do you do;" witness was in one corner of the shop; he said nothing more he inquired for nobody; he remained from 5 to 10 minutes; can't say that he did any thing; can't say that witness saw him leave; he came in and walked down the shop past the addition where the rivet making fire was; when he passed the addition witness couldn't see him, and did not watch him; couldn't see anvil of rivet fire; saw nothing in his hand while in the shop; took nothing away from shop, as prisoner knows; could not see back-door from where witness was sitting; could not have gone out of front door without witness seeing him; have never seen the iron since; continued working in shop up to the latter end of October; no other stranger came into the shop until Quick returned; witness did not go near Quicks' anvil while he was gone to dinner.

Cross Examination. Witness could not say whether prisoner went out of front or back door; it is common for brother chips to go into each others' shops; prisoner might have gone out of front door without being noticed by witness. Witness took no notice of what was done with instrument; back door was generally closed, and a piece of iron placed against it; doesn't know that it was shut at that time: some other person might have come in if door was open, and gone to Quick's anvil without being seen by witness. The floor is a ground floor. The business of shop is ship smithing and boiler making. Prisoner had on a hat and black frock coat, not much worn; couldn't say what kind of pantaloons, vest or shirt.—Witness couldn't swear positively as to color of coat only it was dark colored; prisoner was near front door when witness first saw him at noon.

Mr. Quick recalled. Prisoner never inquired of witness for the instrument after he threw it on floor, and went to dinner; witness's fire and anvil was about midway between front and back door: first man seen by witness, when he came back to shop, was Holmes; does not remember that any one else was in shop; can't say whether back door was fastened or not; it was usually fastened by hook and staples on the inside, and it could be opened from outside by putting hand thro' the window.

Dr. Orton, here called by prosecution, deposed as follows:—Is a practicing Physician and Surgeon; have been one since 1842; didn't know David Ross; doesn't know prisoner; recollects the death of Ross; was present at post mortem examination of his body; saw Squire Parsons about half past 10 o'clock on that day, and he said it might be necessary to have a dissection of the head. The jury adjourned from the house to Parson's office. The deceased lay upon his left side; the first wound that attracted witness's attention was an incised gash over the right eye, about an inch in length. There was another one about at right angles with this, extending to it but not crossing it, also incised, having the appearance of being made with a sharp instrument, a cutting edge. The skull underneath was not fractured. There was a little, above and back of the left eye, quite a large hole; a triangular hole, incised in front; the edges in front quite smooth and a gash extending above the incised part of wound. Witness put his finger in and found the fracture of skull larger than the incised wound; the hole was large enough for two fingers; as witness put his finger in he turned it back a little over the left ear and found the bone somewhat broken but not displaced. Witness found another large hole a little to the left of the occipital protuberance; put three fingers into it; it was two inches in length, and the skull was broken in. The occipital bone is the back bone of the head; noticed no other gashes or injuries. The brain had been disturbed; thinks a portion had escaped; either one of the last wounds described would produce death; saw no other cause of death; examined no part of body but head.

The iron instrument was here produced and District Attorney asked witness if the wounds he had described might not have been produced by an instument similar to that, and Mr. Smith submitted to the Court that it was for the Jury to determine by what instrument the wound was inflicted after having it described. The Court thought it was proper for a witness to testify as to the cause of wound or the nature of the instrument by which it was produced—exception taken.

Witness thinks the wounds, with the exception of that over the eye, might as well have been produced by such an instrument as any other; cannot see how the one over the eye could have been produced by such an instrument; the wound over the eye and the other wounds must have been produced by different instruments.

Cross Examination.—The edges of the skull in the temple wound were somewhat ragged; can't say that the back part of wound formed an acute angle; should think it somewhat circular; there was a portion of bone between the two fractures unbroken. Such an instrument as the one shown witness would or would not drive in skin on the upper edge, according to the force used in applying it; the temporal muscle is about 1-8 inch in thickness; instrument with such an edge would not necessarily *tear* the muscle; thinks a hammer would not produce such a wound as it would be flat. If the edge of a hammer was applied it would produce an incised wound with a smash back. The quality of the skull in front of temple is quite thin and brittle; it would be likely to break and leave a jagged edge. A fracture in the skull near temporal bone would not necessarily receive the shape of instrument by which it was produced; the bone back of head near occipital bone is thicker, and thinks a fracture of it would not receive the shape of instrument. It would depend, however, upon velocity; if a hat intervened the fracture, whatever might be the velocity, would not receive shape of instrument if hat did not. Witness does not think he felt edge of bone on both sides of wound on inserting fingers; the wound was two inches in length; can't say how wide it was exactly; impression is that a portion of the brain was entirely broken off and forced in; the scalp partly adhered and was partly forced in. Don't think there was any regularity of form in wound in back part of head; the scalp was attached in front and detached in rear of wound; the wound witness thinks not as long as wide. A wound made with such an instrument if there was but one blow, and if the instrument entered the head, would be as broad as long; the bone of the wound was forced clear into the head and formed a hole. The temporal wound was large enough for his fingers; witness did not see hat; thinks the wound on the temple was made while the man was standing up, and by some one from behind; the wound on back of head might have been made while the person was standing. Witness thinks a wound such as the one on the temple might have been made with so large an instrument; if the instrument went in it would make a larger hole than the one described.

Charles Lutze, introduced by prosecution, deposed as follows: Lives on East Water st.; is a glove maker: place of busines is 4th door south of Cordes' corner, in 3d Ward; does not know the prisoner; never saw him before. The portion of belt was shown witness, and he said the leather part was his work, but not the flannel; did not know Ross until he bought some articles of him; there was another person with him, who bargained for the articles and Ross paid for them; Ross bought nothing but this belt and paid four shillings for it; the length of belt when he bought it, was about three times the length of the piece; the ends were fastened by a buckle and strap; there were two compartments in the middle larger than the others; those in the middle were each about half the length of a bank bill. The man who came with Ross had a large head of hair and a full face; hair lighter than prisoner's; was in his shirt sleeves, and had on a red under shirt, with sleeves of white shirt turned over. This was one or two days before the report of Ross's death. The hair of the man was in much confusion and he was not sober; the hair had no definite color; it was not red or auburn; he was a broad-shouldered man, and his face was bloated; about 30 years old; about as tall as himself. Witness heard of the murder in the forenoon, and was told that it was committed on that day; a German woman told him; not longer than two days before that Ross bought the belt.

Cross Examination. Did not know Ross' name when he bought the belt; witness first saw piece of belt when some one came and asked him if it came from his shop; it was some days after the murder; don't recollect the day of the week he sold the belt; it was in the afternoon. The man that was murdered asked for the belt; knows who was murdered from the description of him the woman gave; it occurred to witness at that moment that it was the man who bought the belt. If she had described the other man as the one murdered it would have occurred to him who it was. He observed the man most who wanted the belt; the other man looked out of the window often. Ross stood before him. Ross was the tallest man, and the other man the strongest. Ross was well dressed; had on a black coat with crape on his hat, Ross' hair was dark brown, not very long or very short; had two belts, kept the other one until some time afterwards; thinks has never since that day seen that man; took no pains to remember; prisoner is not the man; could not judge whether Ross was taller than prisoner or not; could not exactly say that Ross was taller than the man with him in the shop; cannot say whether the man with Ross had anything on his head or not; did not notice him particularly. They were in the shop 6 or 8 minutes.

Direct Examination. Store was about 16 feet Square.

Court adjourned.

AFTERNOON SESSION.

David Kinmond, called by prosecution, deposed as follows:—Resides in 5th Ward; knows the prisoner by sight; knew David Ross; knew him first 8 years ago, in Massachusetts; thinks Ross was in this city a year or more, before his death; the first time I saw prisoner and Ross together, was about a fortnight before Ross' death; they were at Hanson's, in Huron street, next to Main street; saw them afterwards at Mr. Russell's, on West Water street, a little this side of Railroad; Russell sold liquor; did not see any thing particular between them; sold liquor in corner of room; kept a bar; on Sunday of the death of Ross, saw prisoner; witness saw prisoner betwixt Railroad and Russell's, about 6 o'clock; he just exactly axed where Ross was; told him where witness left him; prisoner then went to Mr. Russell's; witness told prisoner that Ross went right above Military Hall, on Main street, and to the Post office; thinks he said Ross was intending to go home from there; witness saw Radcliffe after that; went to Walker's Point, into one Mr. Fleming's; got to Fleming's about six; prisoner came in and asked witness if he had seen Mr. Ross; witness asked Radcliffe if there was any difference between him and Ross, that he should be so anxious for him; he said he had a letter to send by Mr. Ross, to a brother in Cincinnati; witness said, if he could not see Mr. Ross, he might take the letter up to Mr. Williamson's, as he intended to be there, and should see Ross in the morning; he didn't say as witness recollects, that he would have it; nothing more passed between them; witness seen Ross about 3 o'clock on Sunday at Mr. Flemings; on Macquanago plank road near tannery; we were together about two hours; we were in the house about 15 minutes after Ross came; started out; passed down by the furnace and went around by the paper Mill across the bridge; and continued up to Spring st., and went into a house where they sold beer back of Mitchell's they then went farther on a little way, turned and came down Spring street; Ross saw he was too soon to go to the post office, and they then went to Oneida street and crossed the bridge, and went up to the lake bluff; we went into a house up there, kept by an Englishman; the house was a small house, they sold beer; we came right down to Main street, right above Military Hall; he went down Main street; witness went straight down past Military Hall to Williamson's; it was then about five o'clock; witness had a watch but does not recollect whether he wore it that day or not; never seen Ross alive afterward; witness met prisoner again that day on Huron street; it was about half way to lake shore at 12 o'clock; there was a steamer coming in and he was going to wards lake shore; there was no body with him; witness spoke to him, and they alluded to Ross; cant say who spoke of Ross first.

Cross Examination.—Has known defendant for two years and better; witness' business is shingle making in this city, but never professed that before he came; has been here over two years; used to work in the 4th Ward with Mr. Bagnall; saw defendant first on Sunday, on Huron street; saw Ross next at Mr. Flemings; Ross came into Fleming's alone; he proposed taking a walk; can't recollect drinking any beer with Ross at Flemings; drank with him at Mozart's Hall; went in to get refreshment; couldn't say how many drinks was taken; recollects taking one because we thought we needed it; we went about a quarter of a mile on plank road from there; went to a house near the toll gate and thinks we took something there but can't recollect distinctly; heard of Ross's death on Monday; sometime the next morning; find it hard to recollect where he has been the day before; on our way back can't say whether we stopped at Mozarts or not; if we went in we drank; we then came down Spring street; don't recollect by which street we went to Oneida street; don't recollect exactly whether we went up Oneida street; or not, but we landed at a house on Lake shore; don't think we made any port before we landed there; we felt as we wanted a little, when we got there; we went in and sat down; stayed 15 or 20 minutes; we took something; will swear we didn't drink over twice; we then went to the corner of Main street, near Military Hall; it was about 5 o'clock when we parted; witness then went to his boarding house, Mr. Williamson's; witness left there a little before 6 o'clock; went across Oneida street Bridge, into Water street, to Mr. Russell's; was alone when I went there; found no one; the door was shut; wanted to see a man; might have taken something, if witness could have got in; would have gone in to see the man, any way; went on to Mr. Fleming's, and stopped there to talk a bit; don't recollect taking any beer; stayed till 10 o'clock, then went to Mr. Russell's, for to stop all night; stayed there all night; considered Mr. Williamson's his boarding house; Russell had a boarder, and he got to talking, and I stayed with him; went away the next forenoon; stayed till Fleming and some body else came over to see and said that Ross had been murdered; that witness had been seen with Ross the day before, and they had heard that he was taken up and they had came over to see; witness had been up about an hour; when witness went to Russell's at 10 o'clock he drank some beer; cant say how often he drank; it was one or two during the day; witness drank beer and whiskey both; Spratt was the name of man witness slept with; Ross told witness that he was going to leave the next morning at seven o'clock; witness made arrangements with Ross to meet him at the boat the next morning; last saw Ratcliff a little after six o'clock; witness did not go down to the boat at 7 o'clock in the morning; the reason why he didn't go, was, that he got up in the morning, and didn't feel very well; felt a little head-ache wise, and a little thirsty about the throat; got up before 7 o'clock, and went to bed again; went to bed because I didn't feel well; was up first time, 5 or 6 minutes, perhaps; think he took a little refreshment at that time; finally got up nigh 7 o'clock; witness had been on familiar terms with Ross and had associated with him a good deal; during the 15 days before his death Ross came to Russell's often, and witness met him there; Russell kept a boat to carry people across the River near his place; witness and Ross drank together some times at Russell's; have met him at Flemings and at Hanson's and have drank together there; never saw Ross so bad as witness himself; never owed Ross much; never paid him much money; have received $50 from him; received it from him on the 29th of April; he paid it to me into Mr. Russell's; it was for a mortgage on a farm in Dodge County; he lent me the money on some papers; there were five of them; witness had not paid the money before death of Ross. (Witness here produced an order on Mr. Parsons for the papers, given by Mr. Robert Ross, the brother of deceased; the papers were left with Mr. Parsons for the purposes of this trial.) Witness received some gold and some bank bills from Ross; never heard Ross say how much money he had; witness heard him say on Sunday, that he had every thing ready to start on Monday morning; before Sunday, witness had seen defendant and Ross together at Russell's, three or four times; did not see Ross every day for the last fifteen days; some days, was with him all day; on the Monday before Ross' death witness was with him at Russell's until 10 or 11 o'clock Ross might have staid there all night; witness is not sure that he was with him on Tuesday; on Wednesday witness was with him; went into the country to cut off the time; got back about 8 o'clock; we slept, witness thinks at Milwaukee house on that evening; slept together; thinks he saw Ross every day from Monday to Thursday; don't think he went to Watertown during that time; don't think he was ever there; Ross stopped with witness at Williams' one night; can't recollect whether it was that week, or not; thinks Ross stayed at Russells one night; have been in other places with Ross; we were at a widows on Huron-st once; we were also at a house above Chesnut-st.; we were there an hour; the man was gone away; don't know when he went away; found the daughter of a man and the daughter of his wife there; we were all four together; we once had breakfast at a house on Main street; thinks it was Friday morning; in the forenoon Ross and witness went over to Ross' boarding house; we then came back to a man's by the name of Smith; we got some beer there; then he went to settle with his partner; he came back, and said he had every thing settled; we then parted, and he went to his boarding house; this was before dinner; did not see him again that day; don't know where he staid Friday night; did not see him on Saturday: thinks it was on Monday night, at Russell's; don't recollect his staying a night, or part of a night, at any other house than those mentioned; we once went into Evans' on East Water street, and took a round; witness knew that Ross had money, and he thought they had better go away; they went to Milwaukee House, and Ross put his money under his pillow; knows nothing of his business, except that he said he couldn't get it settled, so as to leave; don't know that Ross didn't go to Watertown; he never spoke about it; thinks Ross has an uncle 7 miles from Watertown, a brother of Ross's mother; have heard Ross speak of him; during the Monday, Tuesday and Wednesday, concerning which witness has been questioned, thinks Ross was not at Watertown; during the whole week, we were more or less spreeing; he paid for most of the liquor; but we both paid once in a while. (The papers found on the person of Ross, were here compared with those mentioned in order of witness, and found to correspond.) Witness paid the $50 to Ross' brother, after his death, and he gave witness this order for papers; the order is dated 21st May, 1851, and witness says the money was paid on that day.

Direct Examination resumed.—Mr. Parsons wrote the body of order; witness was intending to go with Ross on Monday morning; he was going to Cincinnati, and witness was going down East.

Edw. Bolton next witness for Prosecution deposed as follows:

Was acquainted with David Ross; knew him about six months before his death; knows the prisoner; he has made inquries of witness about Ross; it was on Friday before the death of Ross at United States Hotel; Prisoner came in in the forenoon; and inquired of witness if he had seen Ross that day; witness replied that he had not; asked him why; his answer was that Ross was going away; that he had some unfinished business and some papers and was intending to leave them with witness; that he had advised Ross to do so; witness told him that he had not; Mr. Ross never spoke of leaving any papers with witness and never did leave any with him; know of the death of wife of Ross; it took place in March before his own death; Ross came to witness the morning after his wife died, and desired him as he was a stranger to assist him in getting carriages and a minister; witness had met him after; had met him at Church often; was there with his wife often until a little time before her death; he was there after the death of his wife.

Cross Examination.—Ross went to Universalist Church; he was about 28 years old; knew nothing of Mr. Boynton's having business of Ross to do just before his death; recollects hearing Ross say he had sold out to Wigler and was going back into shop; he was a machinist; witness would not have considered it strange for Ross to leave papers with him or business with him.

Direct Examination Resumed.—Witness could not say what the general habits of Ross as to sobriety were; took him from what he saw of him, to be a sober, upright man.

Cross Examination.—Thinks his habit as to drinking, changed after the death of his wife.

PRETTY GOOD.—A clerical gentleman of Boston, on hearing of Jenny Lind's marriage to Goldschmidt, exclaimed—

"She stoops to conquer,——
GOLDSMITH."

HONOR TO THE TOILING HAND.

All honor to the toiling hand,
Or in the field or mine;
Or by the harnessed fire or stream,
Or on the heaving brine;
Whatever loom, or bark, or plow,
Hath wrought to bless our land,
Or given around, above, below,
We owe the toiling hand:
Then honor—honor to the toiling hand!

It battles with the elements,
It breaks the stubborn sword:
It rings the forge—the shuttle throws—
And shapes the social board;
It conquers clime—it stems the wave—
And bears from every strand
The sweetest, best of all we have,
Gifts of the toiling hand:
Then honor—honor to the toiling hand!

To the Electors of the 1st Ward.

MY name having been presented to the public by my friends as a candidate for the office of JUSTICE, and being assured, by a great number who attended the caucus at Military Hall, that, on account of the limited number of votes cast, the result affords no indication of the preference of the Electors of said Ward for that office, inasmuch as the meeting was held during the sitting of the Court, where many of my friends were engaged in an important trial, and were unable to attend; and from the interest manifested in the canvass for the numerous other offices, that of Justice seemed to have been neglected, except by my opponent and those in his employment; I have therefore consented at the solicitation of many of the ELECTORS, to allow my name to be used as a candidate for the office of Justice of the Peace of the First Ward, and hereby solicit your votes, without distinction of party.

CONSUMPTION OF THE LUNGS.

SYMPTOM.—When Consumption commences its work upon the lungs in its usual form, the first symptom is a cough. As the disease advances the cough becomes much more frequent, and is attended with the expectoration of matter, which is sometimes colorless, but at others assumes a yellowish or greenish hue, and will often be found mixed with streaks of blood. After the cough has continued for a time the patient will experience some difficulty in breathing accompanied, perhaps, with a pain in the chest, and frequently in one or both sides. The patient will be subject to a hectic fever, and alternate flushes of heat, frequent cold chills, and often with copious night sweats.

Those threatened with *Consumption* should bear in mind that "*Wistar's Balsam of Wild Cherry*" is the *remedy*, that has performed cures of *Consumption* that were thought almost miraculous—cures which have astonished the medical world, and brought the bloom of health to many a pallid cheek, and joy and gladness to many a despairing bosom

IMPORTANT TO CONTRACTORS.

PLANK ROAD LETTING.

PROPOSALS will be received by the undersigned for the graduation, superstructure and bridging of the Glasgow and Huntsville Plank Road

For the information of non-resident contractors, it is proper to state that this road is intended to connect the city of Glasgow, on the Missouri River, with the town of Huntsville, in Randolph Co, Mo, and is about twenty-eight miles in length The country over which it passes abounds with suitable timber, and is in other respects favorable to the cheap construction of plank roads There are, however, a few streams which will require bridges of considerable extent

The time for the completion of the road has not yet been fixed, and though it is desirable to complete the road as soon as possible, yet sufficient time will be allowed contractors Contractors may rely upon promptness in payments, as the means of the company are ample.

Those who wish to examine the route will receive all necessary information from Maj R. Walker, the Engineer.

Bids will be received until the first of June next, when it is proposed to assign the work to the bidder or bidders whose proposals may be approved as most favorable to the company. Plans of the work will be ready for inspection first of April.

For the encouragement of contracting companies, it is proper to state that there are two other plank roads in contemplation in the vicinity, both of which will no doubt be constructed.

Communications are required in duplicate; one copy to be addressed to the undersigned at Huntsville, the other to F A Savage Esq, Secretary of the Company at Glasgow.

The American Cough Candy.

WE know of nothing in the annals of medicine which has achieved, within the same space of time, so just and general a reputation, as the above invaluable *Cough Remedy*. Testimonials of its wonderful efficacy in curing the most inveterate cold continue to flow in upon us We are assured that where ever used it is superceding all other remedies of the kind Grevious to relate, the Nightengale had she tested its virtue, probably never would have taken to herself a Goldschmidt. She having taken that melancholy step, from the fear that her voice was gone forever; having experienced only temporary relief from the Remedy last taken.

Why is the American Cough Candy like a Black Cloud? Because it goes ahead of Storms.

PRESSED, FIRE-PROOF TILING.

CERTIFICATES OF RECOMMENDATION.

BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire proof Tile, invented by Mr. Graessle; having found them perfectly secure during snow-storms, rains, wind and intense cold. I hereby take occasion to recommend said roof covering to every house-builder, inviting them to satisfy themselves by occular inspection of the excellent quality of the same ENNO MEYER,

Druggist, 374 W. Water st., 2nd ward.

Milwaukee, Feb 3, 1852

The above I found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr. Graessle. AUGUST KRUG,

Brewer, Chestnut-st, 2nd ward

The undersigned, having carefully examined the pressed roofing Tiles, invented by Mr Graessle, have found them perfectly answering the purpose intended. Their practical and sagacious construction recommend this kind of Tile, not only as a fire proof and perfectly water proof covering, but above all for its durability. The ridges and channels not only exclude the entering of snow or rain-water, but, by their firm and precise joining of one into the other, they give to the single Tile as well as to the whole covering an absolutely moveable position and an intimate connection Besides this, Mr. Graessle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them in this way durable; and joining to the above another virtue, viz that of dispensing with repairs The undersigned therefore consider themselves fully justified in recommending to the building community the above roofing Tile as an excellent and valuable material

To G. Graessle:—I have examined the Roofing Tile made by you, and have no hesitation in recommending them to general use, and particularly as a fire-proof roof.

ARRANGEMENTS FOR 1852.

AS the season for emigration approaches, we beg to acquaint our friends and the public with our Arrangements for the year 1852, and would inform them, that with an increase of business—for which we are grateful—we are placed in possession of greater facilities for conducting the Emigration and Foreign Exchange Business than any other House in the World, and for which—in a great measure—we have to thank a discerning public for their continued patronage.

Since the commencement of last year a large number of magnificent ships have been added to the various popular lines for which we are the Agents, and several others are now in course of construction, all of which will be fitted up for passengers in the most superior manner, and commanded by men of long experience.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the Foundry business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST

DOUBLE OVEN COOKING STOVE,
(Which received the First Premium at the State Fair, lately held at Janesville,)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

A Word of Caution to the Public!

Dealers in Pain Killer are cautioned against buying or selling a spurious article of Pain Killer, manufactured by White & Co, of Buffalo, which is a worthless imitation and the pamphlets a "BASE FORGERY" which will appear by comparing them with the Genuine. "The certificates are copied verbatim." The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person, engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud." PAIN

Is the warning given of the presence of disease, and the disarrangement of the nervous and muscular system. In order to cure disease and rid the system entirely of its cause, our first great desideratum is to stop the pain—strengthen the nervous energy—invigorate healthy action—the functions and secretions of every organ in the system; this we accomplish by the marvellous strengthening, cleansing, invigorating and powerful pain-soothing properties of Radway's Ready Relief. No matter what the cause of pain be—if it arises from nervous prostration, muscular debility, disarrangement of the functions of the liver or secretions of the skin, whether it be rheumatism, neuralgia, sick or nervous headache, nervous irritability, spasmodic affections, cramps, diarrhoea, bowel complaints, chills and fever, whether it originates from internal derangements or external injuries—Radway's Ready Relief, taken internally and applied externally, will speedily and effectually stop the pain and cure its cause.

RHEUMATISM.

100,000 cases cured in 1850. The most excrutiating pain stopped in two hours.

It will stop the most torturing pains of this distressing complaint by one application. We have never known it to fail in giving instant relief. In every city, village and town of America, it has cured some of the people of this cruel complaint.—In every case we warrant it to do as stated—it will instantly relieve the sufferer from pain, and speedily cure its cause.

NEURALGIA.

10,000 Neuralgia cases cured in 1850. It will stop the most violent pains in fifteen minutes.

The crue and excrutiating pangs of pain of this distressing complaint are instantly arrested by Radway's Ready Relief. Radway's Ready Relief is the only remedy that has effectually cured Neuralgia in its worst forms.

DIARRHŒA.

200,000 persons cured in 1850. Pains stopped in fifteen minutes.

Radway's Ready Relief cured more cases of cholera morbis, dysentery, cholic and all bowel complaints, the past year, than any other remedy in use. On the banks of the Mississippi, Missouri, Illinois and Ohio rivers, in New Orleans, St. Louis, Cincinnati, Detroit, Chicago, Milwaukee, Galena, and other places where the diarrhoea, cholera and dysentery raged so fearfully, Radway's Ready Relief was used with the best success. It will in 15 minutes stop the most violent craps and spasms, impart a genial heat throughout the whole system, allay all irritation; stop the painful discharges and relieve the patient from all pain.

CRAMPS AND SPASMS.

A teaspoonful of Radway's Ready Relief, taken internally and by bathing externally, will in a few minutes stop the most violent Cramps and Spasms. In many cases where the extremities had lost all feeling, where they were cold and numb, the limbs distorted and shrunk, rubbing with Radway's Ready Relief has always brought back life and action, and a quick and healthy circulation of the blood. Whenever you find a person afflicted with Cramps and Spasms, apply Radway's Ready Relief immediately; in 15 or 20 minutes it will relieve the sufferer from all pain.

HOOFLAND'S CELEBRATED GERMAN

BITTERS,

Prepared by Doct. C. M. Jackson,
AT THE GERMAN MEDICINE STORE,
120 Arch-st., Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

READ AND BE CONVINCED.

[From the Boston Bee.]

The Editor said, Dec. 31: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY.

One of the best literary papers published, said, August 25 "DR. HOOFLAND'S GERMAN BITTERS, manufactured by Dr Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 24, says:—"A Medicine.—We speak knowingly of Dr. Hofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

LOOK WELL TO THE MARKS OF THE GENUINE.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

GREAT DISCOVERY.

JOHNSON'S CHEMICAL

HAIR INVIGORATOR,

To Prevent Baldness, and to Restore the Hair that has fallen off or become thin, and to cure effectually
SCURF OR DANDRUFF.
Prepared only by S. JOHNSON, 151 E. Water-st.
FOR THE TOILET,

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff, and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the harshest hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the lastest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Nov 24 2m

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"

from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. we invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
